

Bauerfeind AchilloTrain® Achilles Tendon Support

AchilloTrain is a comfortable knitted support with a silicone insert alongside the Achilles tendon and under the heel. An additional heel cushion is provided for the unaffected foot. It is worn to treat Achilles tendon injuries.

Product Features:

- Knitted Achilles tendon support incorporating an anatomically contoured silicone insert that runs alongside the Achilles tendon
- Silicone insert leaves tendon pressure-free and provides intermittent compression for the reduction of swelling and edema
- Built-in contour of anatomical knit places ankle in slight plantar flexion
- Viscoelastic heel-wedge incorporated to additionally raise the heel for relief of Achilles tendonitis
- Additional heel-wedge provided for unaffected foot thus preventing leg length discrepancies
- Provides peak shock load reduction to joints and vertebral column with both heel cushions in place
- Promotes proprioception, thus heightening sensory awareness in the ankle for increased joint stabilization
- Lightweight, breathable knit will not retain heat and is completely machine washable

Can be used to treat:

- Achilles tendonitis
- Achilles tendon strain
- Bursitis of the Achilles
- Post-Achilles tendon rupture
- Haglunds Deformity
- Seiver's Disease
