

## **Bauerfeind AchilloTrain® Pro Achilles Tendon Support**

Extremely comfortable knitted support with a knobbed viscoelastic insert alongside the Achilles tendon to treat Achilles tendon injuries.

### **Product Features:**

- Lightweight, breathable anatomical knit will not retain heat and provides an excellent fit that is very comfortable to wear
- Viscoelastic insert runs alongside the Achilles tendon leaving the tendon pressure-free and providing intermittent compression which reduces pain and swelling
- Viscoelastic insert has soft, proprioceptive stimulating nodules on the inside as well as longitudinal grooves so that the upper tendon and muscle-tendon transition and nerve endings are stimulated by the wing-like insert
- With movement, the nodules provide a massage that accelerates the healing process.
- Stimulation of the nerve endings in the muscle transitions heightens proprioception and improves muscle control
- Integrated stretch zone knitted in the front of the support makes it easy to put on and take off
- Promotes proprioception, thus heightening sensory awareness in the ankle for increased joint stabilization
- Machine washable

### **Can be used to treat:**

- Achilles tendonitis
- Achilles tendon strain
- Bursitis of the Achilles
- Post-Achilles tendon rupture
- Haglunds Deformity
- Seiver's Disease

### **AchilloTrain Pro**

Size	Circumference in inches	Item #
1	6 <sup>3/4</sup> - 7 <sup>1/2</sup>	110110500*0001
2	7 <sup>1/2</sup> - 8 <sup>1/4</sup>	110110500*0002
3	8 <sup>1/4</sup> - 9	110110500*0003
4	9 - 9 <sup>3/4</sup>	110110500*0004
5	9 <sup>3/4</sup> - 10 <sup>3/4</sup>	110110500*0005

*\*1=Nature, \*7=Black \*8=Titanium*

Size is determined by loosely measuring the circumference of the ankle at the narrowest point
