

# For greater wearing comfort. GenuTrain®

A perfect fit for a daily routine  
free of discomfort

• NEW

**Donning aid**  
The built-in donning aid makes it easy to put on with little effort using just two fingers.

**Spiral stays**  
Flexible spiral stays make sure the support does not lose its shape.

• NEW

**Easy on the hollow of the knee**  
The active knit at the hollow of the knee, which has undergone further technical development, is very fine, making it gentle on the sensitive skin there.

**Edges**  
The compression applied by the support eases off at the elasticated edges. This makes it comfortable to wear.

**Elastic**  
The high elasticity molds itself to the shape of your leg, so ensuring a secure fit.

**Breathable**  
The breathable Train active knit is gentle on your skin and regulates moisture levels, creating a pleasant climate around the leg.

• NEW

**Customized fit**  
Development of the Train active knit is based on years of experience. We have measured a countless number of legs. Analysis of this data guarantees that your support will be a perfect fit.
