

## **Bauerfeind GenuTrain® S Knee Support**

The GenuTrain S Active Knee Support is a soft, breathable, knitted support with lightweight, plastic medial/lateral sidebars. The circular silicone insert around the patella redistributes the pressure from the patella to the surrounding soft tissues.

### **Product Features:**

New thermoplastic medial/lateral sidebars are very lightweight, stable, and reshapeable. Anatomically contoured right and left versions stabilize the knee without affecting its function

- Direct connection between the non-elastic straps and the contoured joint bars facilitate optimal knee stabilization
- Unique, anatomically contoured, soft, breathable, knitted material assists proprioception leading to improved muscle stabilization
- Joint bars are inserted in a guide channel, which also provides added protection for the knee
- Machine washable
- Available in Nature or Titanium

### **Can be used to treat:**

- Slight instability of the knee
- Osteoarthritis of the knee
- Arthritis (e.g. progressive rheumatoid arthritis)
- Medial/lateral ligament injury
