

Bauerfeind ValguLoc® Bunion Regulator

You can say good night to bunions! Bauerfeind ValguLoc® provides excellent bunion relief while you sleep. Slip on at nighttime and experience remarkable relief from the pain and nagging discomfort of bunions. While you sleep tight tendons and muscles stretch giving you comfort and relief. It relieves bunion pressure and provides superior support that won't slip or move about. The plastic brace secures your toe in place, while soft foam surrounds the tender area. Adjust the pad to provide the most protection where needed and secure in place with the Velcro® strap.

Product Features:

- Counteracts big toe misalignment by constantly stretching the soft tissues and joint capsule of the foot
- Big toe is gradually brought into correct alignment through the application of gentle forces
- Velcro fastening allows for variable adjustment of the correction pressure
- Assists with realignment or stabilization of the big toe
- Anatomically contoured, thin, lightweight design ensures maximum comfort and convenience
- Great for nighttime use. Wear without a shoe. Not suitable for walking
- Latex-free construction and hypoallergenic foam material eliminates skin irritation
- Not recommended for those with diabetes
- Easy to clean with soap and warm water

Can be used to treat:

- Bunions . conservative and postoperative
- Turf-toe
- Realignment of the big toe
- Stabilization of the big toe
- Hallux valgus . conservative and postoperative
