

Bauerfeind ViscoPed® Insoles

ViscoPed is the original full length insole for targeted relief of metatarsal pain (pain under the ball of the foot), tired, aching feet, sore knee joints and back pain.

Product Features:

- Full-length viscoelastic insoles incorporating areas of softer density in the heel and under the ball of the foot, in the metatarsal region
- Raised metatarsal pad aids in desired realignment of metatarsal heads
- Slight contouring of the arch for gentle support
- Provides shock load reduction throughout the entire length of the insole
- Ventilation holes allow for air circulation to prevent heat build-up
- Five sizes may be easily trimmed for optimum fit
- Comfortable and long lasting
- Easy to clean with soap and warm water
- Available in pairs to prevent leg length discrepancies
- Can be switched from one pair of shoes to another
- Viscoelastic medical-grade silicone provides peak shock load reduction to ankle, knee and hip joints
- For an insole without the raised metatarsal pad see ViscoPed S
- Does not contain latex
- Does not absorb odors

Can be used to treat:

- Metatarsalgia
- Fat pad atrophy
- Foot pain (plantar pain)
- Pressure redistribution
- Diabetic foot
- Morton's neuroma
- Back and joint pain
- Hyperkeratosis
- Splayfoot
- Forefoot and toe deformities

ViscoPed

Size	Shoe Size		Item #
